The Greatest Threat to a Community is the Belief that Someone Else will Save it!

THE CLIMATE CORPS INITIATIVE

Welcome to The Climate Corps Initiative (TCCI), where environmental advocacy meets community empowerment in the city of Los Angeles. At TCCI, our mission is to serve and uplift disadvantaged communities, with a special emphasis on the Sun Valley area, responding to decades of environmental inequity and urgent calls for positive change. As an innovative nonprofit, we strive to ensure every resident has the right to clean air, safe water, and green neighborhoods, regardless of income or background.

Through grassroots partnerships, local outreach, and public education, TCCI fosters environmental justice and climate resilience. Our work in Sun Valley includes confronting industrial pollution, expanding access to urban green spaces, and elevating community voices in local decision-making. We invite all Sun Valley residents and our broader Los Angeles network to join us in building a sustainable future, one rooted in collaboration, transparency, and hope. Together with TCCI, let's make Sun Valley a model for transformation and ensure environmental progress reaches every corner of our city.

- CLIMATE AND COMMUNITY RESILIENCE

VOLUNTEER OPPORTUNITIES

Join us in making a real difference! The Climate Corps Initiative invites you to volunteer and be part of our mission to serve and uplift disadvantaged communities in Los Angeles.

Your time and passion can help create cleaner air, greener neighborhoods, and a healthier future for all, especially in places like Sun Valley that need it most.

Whether you have a few hours or want to get more involved, your efforts will help strengthen our community and protect our environment. Step forward, give back, and help us build lasting change - together, we can make our city thrive.
